For a limited time, we are continuing the introductory membership of \$100 to be used in promoting new membership in conjunction with section and chapter events. The introductory or trial membership can be used in conjunction with a \$100 difference between member and non-member fees for a local meeting; or it can be run as a membership campaign not associated with a local meeting.

- The promotion applies only to individual memberships and must be conducted through a local section or chapter. **This offer cannot be used via the web site.**
- Eligibility: People who have never been A&WMA members or have not been members during the 12 months prior to signing up for this offer.
- Introductory price of \$100 is for first year individual membership with the choice of either EM or the Journal. Renewal will be at \$165.00 for individual members.
- If you want both magazines, the additional magazine will be \$49/year.
- When run in conjunction with a local meeting, the special rate can be offered on any meeting until June 30, 2005.
- When run as a separate membership campaign, the cutoff will also be June 30, 2005.
- The new member applications must be collected, along with the \$100 payment, by a local officer and submitted to Headquarters on a regular basis.
